

Involving the Community

Ark Energy's approach

Ark Energy appreciates the importance of engaging, listening to and involving community members and other local stakeholders throughout the project's development, and ensuring that local priorities and concerns are considered.

Ark Energy's approach to consultation is informed by the International Association for Public Participation's (IAP2) Core Values, Code of Ethics and Public Participation Spectrum, widely accepted as the industry benchmark. It is open, inclusive, responsive, accessible and transparent.

The company is also a signatory to the Clean Energy Council's *Best Practice Charter for Renewable Energy Projects*, a voluntary commitment to engage respectfully with communities, be sensitive to environmental and cultural values, and make a positive contribution to the regions in which we operate.

We are focused on providing opportunities for interested community members and stakeholders to participate, and maximising opportunities for the community to benefit from the project in meaningful ways.

We value input from local community members and community consultation is ongoing. There are many ways to stay informed, provide feedback and participate in the process, and where possible the community's input will be incorporated into project plans to improve outcomes and lasting benefits.

Ways to stay informed & participate

Website

The project website – bowmanscreekwindfarm.com.au – provides up to date project information, maps, previously issued newsletters.

Project newsletters

Project newsletters are available by post and email.

To receive newsletters by email register online at arkenergy.com.au/mailling-list-details.

To receive newsletters by mail, please send your postal address and a request to be added to the mailout list to info@bowmanscreekwindfarm.com.au.

We respect your privacy, and your details will only be used for this purpose.

All previously issued newsletters are available under the 'News' tab on the project website, bowmanscreekwindfarm.com.au.

Community information sessions

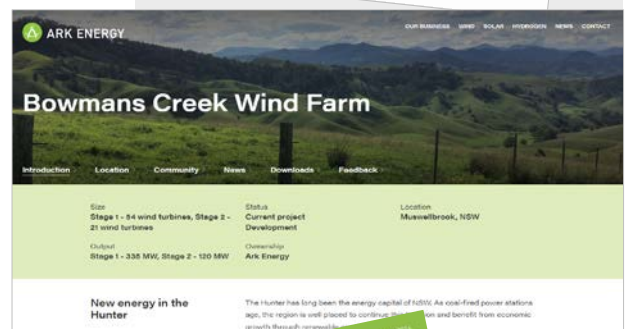

Local information sessions will be held during the planning process. Details will be advertised in project newsletters.

Public exhibition period

After the Environmental Impact Statement (EIS) has been lodged and accepted by the NSW Department of Planning, Housing and Infrastructure (DPHI) it will be placed on public exhibition and open for submissions.

Community benefit sharing

The project will involve a community benefit program with funding from the start of construction and for the life of the wind farm. The funding commitment will be agreed in consultation with local councils and based on an amount per installed megawatt, per year. Feedback on priorities for the program are welcome and can be sent directly to the project team.

Tell us what's important to you for Bowmans Creek Wind Farm Stage 2's community benefit program

The Bowmans Creek Wind Farm Stage 2 will involve a community benefit program with funding from the start of construction and for the life of the project.

It is intended that the program will:

- **Share** benefits with the broader local community.
- Make a **meaningful contribution** to issues the community cares about.
- Be **flexible** to focus on changing priorities over time.
- Ensure the project is a **positive, rewarding** and **beneficial** development for the local community.

Community members and other local stakeholders are invited to help inform the design of the program by sharing their views on what is important for the local community.

This can be done by emailing the project team directly using the contact details below.

Questions and feedback welcome at any time

Questions and feedback are welcome at any time.

Please send your comments directly to the project team via the contact details right.

We appreciate all input and will do our best to respond to enquiries as quickly as possible.

Ark Energy's engagement goals & commitments

Ark Energy's goals for community engagement include to:

- Ensure community members are well informed and kept up to date on project status and developments.
- Obtain feedback and provide ample opportunities for community members to communicate their views, concerns and aspirations for the project.
- Address any community member's issues or concerns promptly.
- Work to avoid and minimise the impacts and maximise the benefits of the project for the local community.
- Wherever possible utilise input from community members to optimise the design of the project.

Ark Energy commits to:

- Be proactive – connect early in the process and regularly share information so community members know what is happening and how to interact with the project team and provide feedback on the project.
- Be transparent – be honest and ethical in our dealings with all.
- Seek solutions – engage to understand, explore and collaborate on ways to avoid and minimise impacts and maximise the benefits of the project.
- Be flexible and inclusive – ensure that our engagement provides opportunities for all interested community members to have access to information and members of the project team.

Invitation to participate

Bowmans Creek Wind Farm Stage 2 Social Impact Assessment Survey

Umwelt Environmental & Social Consultants are undertaking a Social Impact Assessment for the Bowmans Creek Wind Farm Stage 2 proposal.

Local residents and community members are invited to contribute to this assessment by completing the Social Impact Assessment Survey.

To access the online version of the survey please scan the QR code right on your device or visit the web page:

www.research.net/r/BowmansCreekWindFarmStage2

Alternatively, if you would like to receive and complete a printed copy of the survey, please contact Karen at Umwelt on 1300 793 267.

The survey is open until 15 April 2024.

Scan QR code to access the online version of the Bowmans Creek Wind Farm Stage 2 Social Impact Assessment Survey. The survey is open until 15 April 2024.
